1. Introduction

This document contains all essential information for the user to make full use of this Enterprise A2019 Covid-19 Advisories & Stats CDC Bot. It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the Covid-19 CDC Advisories & Stats Bot.

1.1 Overview

The Enterprise A2019 COVID-19 CDC Advisories & Stats Bot can be used to download state and local COVID-19 data from the Center for Disease Control (CDC):

1.2 Use cases

Common use cases for this bot are for communicating information to employees, for example, especially during COVID-19-related events; these include:

- National COVID-19 CDC cases
- State COVID-19 CDC cases
- Case breakdown by county

CDC updates on cases of coronavirus in US

**Case count summary**

- Total cases in US: 605390
- Total deaths in US: 24582
- Total cases in California: 23238
- Total cases in Santa Clara County(0985) by 1666

Visit California's health website for more details: Click Here

Safety Tips

Stay engaged during quarantine. Thing to do and watch.

- Kids
- Partner
- Single
- Pets
2. Getting Started

2.1 Quick Start

2.1.1 Import Bot

1. Download the bot from the Community Edition Bots page to your computer.
2. Launch the Community Edition Control Room by logging into your Community Edition account. Note: If you do not have a Community Edition account, sign up here for free.
3. Navigate to My Bots by clicking Bots in the left panel and then select My Bots:

4. Click Import Bots:

5. Click Browse and select the Bot you would like to import:
6. Refresh the bot list by clicking on the “Refresh table” button to access the newly imported bot.

2.1.2 Setup

Download the A2019 COVID-19 CDC bot file and import into your A2019 Control Room Repository.

2.1.3 Configuration and Use

- Run bot and add the following parameters:
  1) vFileDownloadPath: Filesystem path to download folder E.g: C:\Users\<YourPCUsername>\Downloads
  2) vEmailId: Recipient email ID
- Bot fetches national and state level coronavirus cases from CDC website.
- Bot fetches county level coronavirus cases from Usafacts website.
- Bot saves these data in csv.
- Bot shows interactive form to enter FIPS code for the County you’re interested in. FIPS codes can be found here - https://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/home/?cid=nrcs143_013697
- On clicking find button bot does a VLOOKUP to find number of cases in that county and respective state.
- Bot shows this data in form and emails details to configured email id. Currently to and from email ids are same. Can be configured accordingly.
  If you do not have Microsoft Outlook configured with your mail box on your system, you can change the option on Line 76, from Outlook to Email Server. You can find the SMTP settings for popular email services here - https://docs.automationanywhere.com/bundle/enterprise-v2019/page/enterprise-cloud/topics/aae-client/bot-creator/commands/cloud-configuring-mail-server.html
- Bot sends personalised email to the email id you provided.
3. Requirements & Prerequisites

3.1 System Requirements

Below are the minimum system requirements for running bots as an Enterprise A2019 (cloud-deployed) or Community Edition user on your local machine.

**Hardware Requirements**

<table>
<thead>
<tr>
<th>Device</th>
<th>Processor</th>
<th>RAM</th>
<th>Storage (Free Space)</th>
<th>Network</th>
</tr>
</thead>
<tbody>
<tr>
<td>Machine</td>
<td>Intel Core i5 2.6 GHz</td>
<td>4 GB minimum, 8 GB recommended</td>
<td>32 GB</td>
<td>1 GbE</td>
</tr>
<tr>
<td>Bot Creator and Bot Runner</td>
<td>No additions to the machine requirements</td>
<td>No additions to the machine requirements</td>
<td>Add 100 through 150 KB per Automation Anywhere script</td>
<td>No additions to the machine requirements</td>
</tr>
</tbody>
</table>

**Browser Requirements**

The user interface for Automation Anywhere Enterprise is through a browser. Login to your device then login to Enterprise Control Room through a browser.

<table>
<thead>
<tr>
<th>Browser</th>
<th>Browser Version</th>
<th>Automation Anywhere plug-in version</th>
<th>Supported bot functions by Bot agent version</th>
</tr>
</thead>
<tbody>
<tr>
<td>Google Chrome¹</td>
<td>57 or later</td>
<td>11 or 12</td>
<td>2.0.2, 1.0.2, 1.0.1</td>
</tr>
<tr>
<td>Microsoft Internet Explorer</td>
<td>11</td>
<td>N/A</td>
<td>None, Debugger only, All except Credential Vault</td>
</tr>
</tbody>
</table>

---

¹ Google Chrome re-verification

**CAUTION:** Google Chrome requires re-verification of permissions when the Automation Anywhere Google Chrome extension (Version 11.3.3 or later) is updated. If prompted, click **Enable this item** in the Google Chrome message. Alternatively, re-enable the extension through [Chrome Web Store](https://chrome.google.com/webstore/detail/google-chrome/boejeblfmmcgbfpdilgmnfndajncbcpm). Similarly, if you are deploying your Bot Runners from a master image, accept the permission from within that image.

² Google Chrome plug-in versions

A2019 supports Chrome plug-in version 11. If you have other versions installed, you might not be able to record tasks using the **Record** feature or **Capture** action. To resolve this issue, do the following:

1. Rename the `automation.chrome.agent` registry key to `automation.chrome.agent.old`. The registry key is available at: `Computer\HKEY_CURRENT_USER\Software\Google\Chrome\NativeMessagingHosts`
2. Disable all other Google Chrome plug-in versions you have installed, except for version 11.
3.2 Prerequisites

This Bot uses Automation Anywhere Enterprise A2019.10 & above (On-Prem/Cloud/Community Edition) in order download the CDC information.

The following are required:

- Google Chrome Browser
- Internet Explorer Browser
- Microsoft Excel 2010 & above
- Internet Connection
- County’s FIPS Code - https://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/home/?cid=nrcs143_013697
4. **Support & FAQs**

4.1 **Support**

Free bots are not officially supported by Automation Anywhere. However, you can get access to Community Support through the following channels:

- Community Support, connecting with other Automation Anywhere customers and developers on APeople
- Automation Anywhere’s [Product Documentation portal](#), which can be accessed for more information about our products and guidance on [Enterprise A2019](#).

4.2 **FAQs**

**Q:** Can I make changes to this bot?

**A:** Absolutely. Free bots are for you to make use of, customize, and/or include in your builds as you see fit.

**Q:** Can I upgrade the packages for this bot?

**A:** Yes – but know that the bot was created/tested on a specific package version. Any modifications to that may result in unexpected outcomes – so make sure to test the bot/subtask after making any package version modifications.

**Q:** How can I change the output format of the bot?

**A:** When calling a subtask, the return value is always of type dictionary, and the value(s) returned from the subtask can be access through their specific variable names as a key within the dictionary.

For questions relating to Enterprise A2019: See the [Enterprise A2019 FAQs](#).
